

Construction General Builder/Bricklayer

Due to continued growth, EDS are looking for experienced and skilled civil construction trades such as bricklaying, plastering, pointing to supplement our structural repair teams to fulfil existing contract obligations. The work involves conducting structural maintenance within difficult environments such as river walls and culverts / tunnels. and structure entry within confined space teams to conduct inspections, maintenance and occasionally clearance.

Any confined space experience would be an advantage, training will be provided.

The applicant must be content to work on site and be confident to work in water, from boats and in confined space environments. The applicant will need to be flexible to meet the needs of travelling to/from sites to meet the needs of our clients and must be able to work away from the EDS base for short durations as work requirements dictate.

Required skills

- 5yrs + experience within relevant construction trade
- Construction Trade qualification / certificates
- Good communication skills
- Experience of working within confined spaces.
- Ability to work independently and within teams
- Capable swimmer
- Be eligible to live and work in the UK
- Full UK driver's licence
- CIS registered

Preferable Skills

- Confined Space Trained (City & Guilds Level)

As our work is rather unusual, we initially employ team support through the CIS scheme. This can be reviewed with a view to full time employment in time if proving beneficial to both parties.
